Electron microscopic changes associated with water absorption in the jejunum A. WYNN WILLIAMS 1
Post-operative absorption of water from the small intestine L. F. TINCKLER and W. KULKE 8
A case of jaundice due to unilateral hepatic duct obstruction with relief after hepatic lobectomy STEVEN MISTILIS and LEON SCHIFF 13
A comparison of the use of Aldactone and Aldactone A in the treatment of hepatic ascites STANLEY SHALDON, JILL A. RYDER, and MYRON GARSENSTEIN 16
Liver disease and ammonia intoxication KENNETH S. WARREN and STEVEN SCHENKER 20
Torsion of the gall bladder R. K. GREENWOOD 27
Duodenal diverticula and haemorrhage M. J. S. LANGMAN 30
The reliability and reproducibility of the Schilling test in primary malabsorptive disease and after partial gastrectomy J. F. ADAMS and E. JUNE CARTWRIGHT 32
The influence of diet on the quality of faecal fat in patients with and without steatorrhoea JOAN P. W. WEBB, A. T. JAMES, and T. D. KELLOCK 37
Studies in dogs on the biphasic nature of the gastric secretory response to hypoglycaemia and other stimuli with special reference to the role of the adrenals W. SIRCUS, C. J. W. HUSTON, R. M. PRESHAW, H. BASSÖE, and R. A. HARKNESS
1 *The pattern of the biphasic response and the relation to gastric innervation and to hypoglycaemia* 42
2 *The relationship of the gastric secretory response to hypoglycaemia and to changes in the level of plasma cortisol* 48
3 *The effect of bilateral adrenalectomy* 50
4 *The interrelationship of the phases of the response and the role of the antrum* 51
The pancreas and gastric secretion: failure of pancreatectomy to prevent inhibition of gastric secretion by secretin JOSEPH A. KENNEDY and GEORGE A. HALLENBECK 58
A 5-hydroxytryptophan-secreting carcinoid tumour A. C. P. CAMPBELL, A. H. GOWENLOCK, D. S. FLATT, and P. J. D. SNOW 61
Histochemistry of the gastric mucosa J. PINTO CORREIA, M. ISABEL FILIPE, and J. COSTA SANTOS
1 *In normal mucosa* 68
2 *In pathological conditions and in changes induced by histamine* 72
Studies on the effect of vagotomy on small intestinal motility using the radio-telemetering capsule B. ROSS, B. W. WATSON, and A. W. KAY 77
Localization of intestinal bleeding using a miniature Geiger counter B. MCKIBBIN and B. W. WATSON 82

The aetiology and management of ascites in patients with hepatic cirrhosis: A review SHEILA SHERLOCK and STANLEY SHALDON 95
The serum pepsinogen level with special reference to the histology of the gastric mucosa O. A. A. BOCK, G. ARAPAKIS, L. J. WITTS and W. C. D. RICHARDS 106
The relationship between acid secretion after augmented histamine stimulation and the histology of the gastric mucosa O. A. A. BOCK, W. C. D. RICHARDS and L. J. WITTS 112
The clinical and metabolic significance of jejunal diverticula W. T. COOKE, E. V. COX, D. J. FONE, M. J. MEYNELL, and R. GADDIE 115
Intussusception in adults complicating specific inflammatory diseases of the intestine PETER GOODALL 132
Studies of basal and peak acid output with an augmented histamine test J. H. BARON 136
Primary lymphoid neoplasms of the stomach H. A. ELLIS and R. LANNIGAN 145
Tumour-forming gastritis J. C. HAWKSLEY 153
Hypoalbuminaemia due to protein loss from gastric carcinoma PAUL TURNER, G. S. C. SOWRY, and P. M. O'DONNELL 155
The management of primary adenocarcinoma of the vermiform appendix K. T. HESKETH 158
Bacteriological and histological studies of the small intestine of rats treated with mecamylamine J. M. S. DIXON and J. W. PAULLEY 169
Function of the pylorus and pyloric antrum in gastric emptying A. K. ARMITAGE and A. C. B. DEAN 174
The relation of sensation in the anal canal to the functional anal sphincter: a possible factor in anal continence H. L. DUTHIE and R. C. BENNETT 179
Ulcerative colitis in the United States Army in 1944 *Follow-up with particular reference to mortality in cases and controls* M. DEAN NEFZGER and E. D. ACHESON 183
Methods and techniques
The application of the Holter valve to the treatment of resistant ascites ADAM N. SMITH 192
